

# KixNurse Medication Dosing Tracker

Print this handy tracker out when your little one is sick and circle the time when your child is due for medications! Once the medication is given, add an initial so you can remember it was given.

Child Name: \_\_\_\_\_

Remember when doubling up fever meds that

- **Advil** (Ibuprofen) should be given every 6 hours or more from the last ibuprofen dose - not before!
- **Tylenol** (acetaminophen) should be given every 4 hours!

Time of Day	Acetaminophen (e.g. Tylenol)	Ibuprofen (e.g. Advil or Motrin)	Other Medication
